Industrial Hose And Cable Protection For Harsh Environments

The tightly woven Nylon® makes DF the perfect solution for hose & cable protection.
The .045 inch wall thickness will protect cables, hoses and ropes from weather, sunlight and abrasion damage.

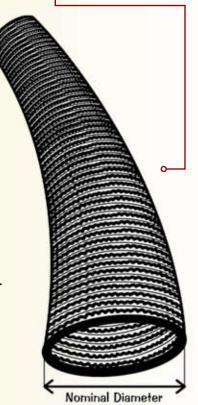

When installed over uncoated cable or chains, DF will prevent scraping, chafing and contact damage to painted or other fragile surfaces. DF is resistant to chemicals, UV damage and rot, and is suitable for continuous outdoor use under all weather conditions.

The flexible sleeving cuts with a scissor and the tight construction slides easily over any application.

This is a non-expandable product. Be sure to match your application diameter accurately.
